GROUP BONUS / MALUS

You benefit from a *Group Bonus* or *Group Malus* and it applies under your **Contract** as follows:

In relation to an *insurance period*, the **Programme Leader** will calculate the loss ratio of the participating **CGS Insureds** (the 'Group Loss Ratio') as follows:

- The numerator is the aggregate amount of indemnities paid out attached to the concerned *insurance period* (net of **Recoveries** received up to the calculation date) plus the reserves for claims attached to the concerned *insurance period*
- The denominator is the aggregate amount of net premium paid by the participating **CGS Insureds** for the concerned *insurance period*

Depending on the balance of the **Group Loss Ratio**, the related adjustment will apply as detailed in the profitability table below:

Group Loss Ratio Group Bonus / Malus applicable

0% - [A%]	[V%]
[A%] - [B%]	[W%]
[B%] - [C%]	[X%]
[C%] - [D%]	[Y%]
[D%] - [E%]	[Z%]

The payment of the Group Bonus shall be exclusively requested by the [**Head of Insured Group/Support Insured**]. The triggering of the Group Malus shall be decided by the **Programme Leader** at any time as soon as there is no more risk of **Non-Payment of Debts** relating to **Deliveries** made during the *insurance period*.

In the event of Group Bonus:

In order to receive the payment of the Group Bonus the [**Head of Insured Group/Support Insured**] must, within [X months] from the last day of the *insurance period*, request from the **Programme Leader** in writing the payment of the Group Bonus and submit to the **Programme Leader** a waiver whereby each and every participating **CGS Insured** waives its rights to payment of any subsequent indemnities relating to the *insurance period*.

We will then pay You a prorated premium refund equal to the share of your net premium payments to the aggregate amount of net premium paid in the **Programme**.

In the event of Group Malus:

In application of the Group Malus, We will invoice You a premium surcharge equal to the percentage of malus defined in the table above times your premium payments.
